You've got a name. Or maybe a Social Security number.
You don't have much. Unless you've got DBT ONLINE.
We turn a few facts into a full report:

- ▶ Personal demographics
- ▶ Past and present addresses
- ▶ Corporations and Businesses
- ▶ Phone numbers
- ▶ Neighbors
- ▶ Relatives
- ▶ Assets
- ▶ And more

If all you've got working for you is a name, make sure it's...

1. READ THE GREEN BAR ON BOTTOM OF EACH SCREEN

2. Nine ways to search the entire nation.

Just a name (May be limited by state (s) - "F5 Key")

Zip code and name

City / State and a name

DOB and a name

DOB and first name

Address with house number as primary criteria

Address with street name as primary criteria

Social Security Number

Phone Number

3. Do not be confused by the fact that there are multiple records for individuals. each record has unique information included

4. Report Options

Personal Profile: Addresses, Relatives, SSN, DOB, Phones, Neighbors, Vehicles, AKA, FAA, Vessels,

National Dossier: Same as current national dossier based on criteria of selected record.

5. Simple Tagging

"F10 Key" (Selects records for simple record printing)

6. Advanced Tagging (Very Powerful)

For more accurate and comprehensive reports, this feature allows you to relate multiple records by using the following tag types:

CTRL_S: Tags Subject. Tag the best record found first. this will display an uppercase "S". You may then tag all of the other records that you know to be your subject. These will display a lower case "s".

CTRL_R: Tags Relatives. Use this to tag known relatives' records.

CTRL_A: Tags Associates. Use this to tag known associates' records

Then go to view tagged records and press the "F8" key. A "Report Options" menu will appear. All of the tagged data will be utilized in the resulting report, furnishing a more accurate and comprehensive profile on your subject.
